

problem.extension.Metricas
Multiobjetivo.DistanceGeneracional

```
graph LR; A[problem.extension.Metricas  
Multiobjetivo.DistanceGeneracional] --> B[problem.definition.State.get  
Evaluation];
```

A diagram showing a dependency from a metric class to a state evaluation method. On the left, a gray rectangular box contains the text 'problem.extension.Metricas' and 'Multiobjetivo.DistanceGeneracional'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'problem.definition.State.get' and 'Evaluation'.

problem.definition.State.get
