

src

```
graph TD; src[src] -- contains --> java[java]; src -- contains --> main[main];
```

The diagram illustrates a directory structure. A light blue rectangle with a dashed border represents the 'src' directory. Inside this rectangle, there is a smaller light blue rectangle with a solid black border representing a subdirectory named 'java'. To the right of the 'java' subdirectory, the text 'main' is displayed, representing a file or another subdirectory within the 'src' directory.
